Health Services Director

# COVID-19 Cases by Week

Data for this week is not yet shown. Data are shown based on the date a case first became identified as a case.

Data is subject to change

# COVID-19 Cases Rising

Similar to what we've seen:

Not wearing a mask – Social gatherings – Afterschool activities – Travel

**We can prevent this:**

- ✓ **Wear a mask**
- ✓ **Socialize outdoors**
- ✓ **Keep some distance**

# Vaccinate & Test

**free COVID-19 test**  
**downtown bend**  
**thurs., may 6**  
**9 a.m. to 2 p.m.**

# COVID-19 vs. Allergies

	COVID-19	Allergies
Common	Fever or chills	✗
	Cough	✓
	Body aches	✗
	Headaches	✓
Less Common	Tiredness	✓
	Loss of taste or smell	✗
Not Common	Shortness of breath	⊖*
	Sore throat	⊖
	Sneezing	✗
	Itchy or watery eyes	✓
	Runny or stuffy nose	⊖

\*Seasonal allergies do not usually cause shortness of breath, unless a person has a respiratory condition such as asthma that can be triggered by pollen.

# COVID-19 Vaccinations by Age Group

# COVID-19 deaths by month

# COVID-19 Case Rate by Age Group

# Moving down to high risk level

Effective Friday, May 7, Deschutes County will move from Extreme Risk Level to the High Risk Level. This means:

- Restaurants may have indoor dining at 25% occupancy (max 50) and up to 120 people outdoors
- Indoor fitness, recreation and entertainment may have 25% occupancy (max 50)
- Retail stores may have 50% occupancy
- Outdoor fitness, recreation and entertainment may have 15% occupancy

# COVID-19 Test Results by Week

# don't delay test today

---

if you're around someone who tests positive, get your test 6 to 9 days later

# COVID-19 Vaccinations in Deschutes County

Vaccination Rates per 10,000 population, by county of residence\*

People vaccinated per 10,000: lighter colors represent counties with lower vaccination rates, while darker colors represent counties with higher vaccination rates.

People with vaccination series in progress	23,381
People fully vaccinated	70,076
Total people vaccinated*	93,457
Total people vaccinated per 10,000 population*	4,842

\*Includes people with vaccination series in progress or fully vaccinated

Data as of 5/3/2021

# When am I fully vaccinated?

You're fully vaccinated **2 weeks after** your last shot. Until then, remain extra cautious – mask, distance, outdoors!

**Less than 1%** of our positive cases have occurred in people who are fully vaccinated.

- ✓ When you're fully vaccinated you don't need to quarantine (14 days) after an exposure.

# Get Vaccinated

**Get back to doing  
the things you  
love,**

**With the people  
you love!**

Dine out with friends

Have a birthday party

Go to the gym

# What will you do once fully vaccinated?

“I am going to go to Costa Rica and kayak. On the return flight I will stop and see my Mom in Mexico. I want to experience life and family again.”

“I’m a senior in high school. Last year we had to cancel prom. I want to experience a high school prom or graduation. I gave it my all and want to be able to celebrate our accomplishments with my friends.”

“See my 91 year old grandma. She is very frail and doesn’t have much time left. I want to hear her stories, smell her cooking, and surround myself with her home with her history.”

# Moving to a distributive model

Long-term sustainable COVID-19 vaccine availability

Vaccines available through

- ✓ Pharmacies, Select Doctors offices, Pop up clinics

**Vaccines are free, Insurance not required,  
Identification not required**

# Second Dose Walk-in Clinics

Bring your vaccine card
