

CLARIFICATION MEMO NO. 1

REQUEST FOR PROPOSALS ENGINEERING CONSULTANT SERVICES

HUNNELL RD: LOCO RD TO TUMALO RD IMPROVEMENT

The following is a list of questions received and responses by the Agency in regards to the Request for Proposals:

- **Question 1** - *Who will be handling the environmental clearance work for this project?*

Agency Response to Question 1 - Deschutes County Road Department does not anticipate any environmental clearances pertaining to wetlands, waterways, hazmat, historic resources, or cultural resources will be required for this project. A DEQ 1200-C permit may be required for the project; the engineering consultant will provide a completed 1200-C permit application to the County as a deliverable. If conditions are encountered during the preliminary engineering phase of the project that warrant additional environmental clearances, the engineering consultant will provide these services as well.

- **Question 2** - *Are federal funds involved with the design portion of this work (i.e. are prevailing wages required for the survey/geotech teams)?*

Agency Response to Question 2 - There are no federal funds involved with this project. State prevailing wage rate laws shall apply for this project.
