Subject: Public Hearing for Side Yard Recycling by Cascade Disposal in Sunriver

[You don't often get email from dseator3@gmail.com. Learn why this is important at <http://aka.ms/LearnAboutSenderIdentification>.]

[EXTERNAL EMAIL]

Chad,

I am a Sunriver homeowner that is opposed to any mandatory side yard recycling for Sunriver. I currently use the Cascade Disposal/ County/SROA Recycling Center for my recycling needs. I recycle approximately one time per month. This plus weekly garbage pickup perfectly meets my needs.

I don't think it is appropriate to force people to spend an additional \$14 per month for a service they don't need or want. What research has been done to determine the demand for service this service? In a recent vote of Sunriver owners they supported the construction of a new recycling center. The vote did not meet the required 60% threshold required.

It makes more sense to have a Subscription Service so owners can choose the service(s) they want and need. This decision should not be based on Cascade Disposals needs.

Thank you for your consideration.
