Dear Mr. Centola,

I appreciate the opportunity to share my support of side-yard recycling pick up in Sunriver with you today.

For years, we have been surprised that a beautiful location such as Sunriver, did not offer its occupants the ease of recycling at their homes, since this has been happening in other parts of the country for quite some time. An area that is surrounded by nature should be doing whatever it can to protect and preserve its surroundings.

There are some advantages that I also see to making this change in Sunriver. First of all, there will be a reduction in noise throughout the day, for all surrounding neighbors, including our residence. I could go into all sorts of details, but with side-yard pick up, I will not miss trash floating through our yard or bottles crashing into containers before and after hours of operation. Another advantage will be the simple ease of just putting recycling in a designated container that will be picked up from the home. I think this will be especially helpful for properties that have renters. And, I hope that with side-yard pick up that Sunriver will be able to get rid of the current recycling area, that has become increasingly more unattractive each year.

I look forward to seeing such a healthy change come to Sunriver. This is long overdue, and I fully support side-yard pick up in our community.

Thank you,
Cathie Corsaro
