Subject: Waste Connections Recycle Proposal for Sunriver

You don't often get email from joe@tcbc.com. [Learn why this is important](#)

[EXTERNAL EMAIL]

Dear Deschutes County Commissioners,

Thank you for the opportunity to provide input on the proposal to provide curbside recycling in the Sunriver area. I attended the board meeting on January 31 virtually and observed the discussion, input, and questions that each of the Commissioners asked. I have put some thought to the proposal and I would like to share those with you.

I am a homeowner and a proponent of recycling, and currently use the recycle center in Sunriver. The current proposal from Waste Connections/Cascade Disposal is for universal curbside recycling. I am not opposed to curbside recycling. What I am opposed to is requiring every homeowner to participate. I believe it should be an option available to the homeowner who willingly "opts in" as opposed to paying for a service that they may not use or want.

I appreciate the time and work that you put into serving our County and the effort to balance the many different views represented.

Thank you for service!
Sincerely,
Joe Fahlman
