Subject: Recycling Expansion

Dear Deschutes County Commissioners,

I am emailing you in support of recycling services that has been proposed by Republic Services. My question to you is why wouldn't you support a reasonably priced and timely collection of recyclables? I do recycle but not as consistently as I should due to the inconvenience of having it accumulate over time and then hauling it in our truck to either Knotts or LaPine.

Deschutes County is a beautiful place to live. Recycling will help keep it that way.
