Tim I sent this to Chad and was informed he is no longer there as shown on the website.

Hello Chad,

I just received notification of a recycling program south of Bend. I think this is fantastic! I have a home in Lake Oswego with garbage, recycling and compost bins. I can tell you from personal experience that picking up recycling every 2 weeks is not enough frequency. It is by far my most used bin and fills the fastest regardless of how broken down the boxes are. This is also the case for my neighbors.

I applaud that we are finally getting recycling service but I suggest weekly if you don't want recycled items in the garbage bin. As there won't be enough room for a 14 days of recyclables.

Just my two cents. Composting next????
