Director Tim Brownell:

I was very pleased to receive information regarding the Deschutes County recycling proposal.

I am a 10 year resident of Fall River Estates and have been an active member in my community, serving on our HOA Board for five years, as President for four years.

While fire abatement is a major concern that we have been addressing, recycling is another big impact area for improvement in our community and surrounding areas within Bend Oregon.

Many Fall River residents do not recycle based on having to haul recycling materials to the transfer station.

I feel that recycling containers within the community would significantly improve our opportunity to reduce waste and landfill volume.

I'm writing to you to communicate my support and desire for this recycling program proposal implementation.

I believe this would be a very positive step to minimize waste and help improve the health of our beautiful forest and wildlife.

Thank you for your efforts and expertise in this regard.

Sincerely,  
Mike Armstrong
