Hi Tim,

We appreciate the opportunity to submit input regarding the proposed curbside recycling program in our area. We moved to OWWII south of Sunriver last year and have been hoping for a curbside recycling program ever since!

We have much more recycling than we do garbage. We compost our food waste so we have at most two bags of garbage per week. The rest, my husband takes to the recycle center off of Hwy 97, but it would be AWESOME to have curbside like we had in our prior home in the valley.

It disturbs us to walk past the neighborhood garbage cans overflowing with recyclable materials and we're hopeful that with the convenience of curbside recycling, more people will participate.

So.....we enthusiastically endorse this proposal and are crossing our fingers that it will happen!
