Tim Brownell,

I am very much in favor of expanding recycling services and feel it would be a positive improvement to the community.

I believe it will have a significant and positive impact on the environment and long-term sustainability by encouraging more community members to recycle, reduce landfill waste, and support the creation of new products from recycled materials. In addition, it will greatly benefit those who currently lack the space and/or means to recycle, as doing so often requires substantial storage space, frequent planned trips to the transfer station, and access to a vehicle with sufficient hauling capacity.

This expansion could also help ease congestion at the transfer stations and add to local recycling collection jobs.

Thank you,

Lucienne Scheltiens
(Three Rivers)
