This would be awesome to have. Coming from Eugene 4 yrs ago, we were shocked that this hadn't been initiated into garbage service yet. We had a big container that would be filled up every two weeks in Eugene. We were very committed to recycling and still are. Save the community and earth. Please start this program up here and make it affordable so people will participate in this great program. This will definitely help out the landfills to last longer. Our future generations deserve our due diligence in such a worthwhile effort in saving the earth.
