Hi Tim,

Yes!!!! Please get South County curbside recycling services if you can! I've lived out here since 2005 and still no practical recycling. So tired of recycling piling up on my porch and then having to go to the SW Transfer Station on the only day that I can (Saturday) regardless of weather and highway conditions. Now that the Sunriver Business Park and Sunriver Proper no longer have public options, the only way to recycle "locally" is at the SW Transfer Station. I easily spend more than the \$6/month it would be for curbside recycling in fuel for the drive there. I have been asking the county and Republic services for years for this service - it looked like it was going to happen last year, but then fell through. So disappointing.

This is Oregon - we have had recycling in Portland starting in the mid - 1980's. It is absurd that in 2026 we still don't have basic curbside recycling collection in South County! PLEASE, PLEASE, PLEASE do what you can to get South County curbside recycling services! Thank you for listening - I appreciate it!
