

## Hazardous Waste Collection for Very Small Quantity Generator (VSQG) Business Registration

Thank you for your interest in participating in the Hazardous Waste Disposal for Businesses Program. Please review the following information and instructions carefully and complete this application in full. ***Businesses generating more than 220 pounds per month or about 25 gallons may not qualify for this program.*** If you're unsure, please contact us with any questions prior to completing this application. Deschutes County reserves the right to refuse service to any business that it deems may be in violation of any local, state, or federal laws.

*The following materials are not counted towards your generator status but must still be managed as waste: used oil (cannot be mixed with any other chemicals), pesticides, lead acid batteries, intact fluorescent tubes and other mercury containing bulbs.*

### Section 1: Business Information

Generator Name		Type of Business (e.g., painting, construction, manufacturing)
Mailing Address		Site Address (if different)
City	State	Zip Code
	( )	
Contact Person	Telephone Number	Email

### Section 2: Compliance & Certification

**Per federal and state regulations applicable to Very Small Quantity Generators (VSQG), I certify that my business generates less than 220 pounds or about 25 gallons of hazardous waste per month and that I have not currently accumulated more than 2,200 pounds or 250 gallons of hazardous waste. I understand that Deschutes County does not assume liability for my waste, and that all future liability remains with my business as the waste generator.**
